ACCOMPLISHMENTS

Construction of approximately 10 runways, taxiways, and aprons. Completed all projects on time and on-budget.

PROJECT DETAILS

Halmar has been a major participant in the multi-billion dollar redevelopment of JFK International Airport. In addition to the International Arrivals Terminal 4, JFK British Airways Terminal 7, AA Terminals 8/9, the multi-tenant cargo facility and the perishables center, Halmar has been instrumental in landside improvements. All projects on-time and in budget. Projects include:

- JFK Taxi lane “SB” – Drainage, concrete, asphalt, electrical installation for a new taxiway.
- JFK Taxiways “U” & “C” – Relocation and construction of a bypass at taxiway “U” and reconstruction of taxiway “C”.
- JFK Taxiway “FB” – Construction of a new taxiway 2,400 feet in length during the night time. Excavation, utilities, asphalt paving, and electrical work.
- JFK Taxiway “Y” – Asphalt paving and airfield lighting.
- JFK Taxiways Q & A – Construction of taxiways.
- JFK British Airways Aprons – Apron ramp repair and rehabilitation.
- JFK Apron “QC” – Concrete apron.
- JFK Delta Airlines Apron – Concrete apron.
- JFK Japan Airlines Cargo Apron – Concrete apron.

Projects completed as Halmar International, Halmar Builders & Halmar employees as Granite Halmar personnel.
